Freestanding galvanized

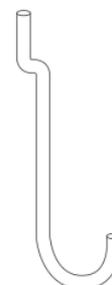

The free standing shelf intended for outdoor use from String® System fits equally well on a smaller balcony as on a larger terrace. The shelf is completely free standing but, if desired, can be secured to the base it is standing on. A complete section of the free standing shelf consists of one back panel (SBP-11-1), two uprights (SU-11-1) and two galvanized floor panels with height 85 cm and depth 30 cm. To build additional sections, you need one upright along with one panel for each section. We recommend at least one back panel, preferably placed in the middle, for a free standing shelf consisting of three sections.

Museum Pedestal - Launching in June 2026

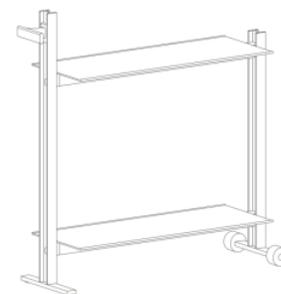

Introducing the Pedestal to the Museum range, with the same rational expression and uncompromising construction. The Museum Pedestal elevates any object or feature in a home to a different level; as a table centre piece, in a bookshelf for the most personal items, or simply to lift the most precious plants in the window sill. The Pedestal measures: w15 x d15 x h30 cm.
